

## HEALTH AND SAFETY POLICY

### **Health and Safety at Work Act 1974**

The 1974 Health and Safety at Work Act covers the total health and safety responsibilities for employers in Great Britain.

### **Health and Safety at Shelki**

At Shelki, health and safety are vital, and Shelki does its best to manage risks effectively and responsibly.

Shelki takes care of its clients and customers, minimising any health and safety concerns wherever reasonably possible.

Some essential health and safety considerations include:

- To minimise health risks by performing a thorough safety check and confirming customers are happy to be treated.
  
- To check customers are always comfortable and support needs to be met
  
- To minimise risks and hazards to customers
  
- To provide the necessary equipment
  
- To provide information and instruction required before, during, and after a session
  
- To ensure equipment is in safe working condition
  
- To ensure that the environment is safe and comfortable
  
- To keep up to date with training
  
- To ensure all equipment is safe and clean for use and has been through the necessary checks (where applicable);
  
- To maintain a safe and healthy working
